

**We're here today because
Massachusetts deserves:**

A sane drug policy (including Cannabis legalization), and an end to the racist war on drugs

Net neutrality and affordable broadband access for everyone

More government transparency, more citizen involvement in government, and a living wage for all workers

Most issues have more than two sides, and people deserve more choices than our two majority parties are willing to offer.

**We need your support for our
candidates for Massachusetts
State Representative**

Noelani Kamelamela Joe Guertin
